

BELKIN®

Hi-Speed USB 2.0 4-Port Hub for Mac® mini

Connect up to 4 high-, low-, or full-speed USB devices to your Mac mini

Our newest Hub has a low-profile design specifically engineered to stack on top of or below the Mac mini—helping to organize and save your valuable desktop space. The Hub provides four 480Mbps downstream USB ports compatible with both Hi-Speed USB 2.0 and USB 1.1 (low- and full-speed) devices. Two of the four USB 2.0 ports are located on the front of the Hub to give you easy access for quick, temporary connections of USB thumb drives, media readers, small accessories such as the Apple iPod and iPod shuffle, and more.

Provides a low-profile, space-saving platform for stacking your Mac mini

Features 2 front-loading USB ports for easy access

Connects up to 2 devices without a power adapter
