

Wireless G+ MIMO Modem Router

Connect directly to your Broadband ADSL line to create a Wireless Network in your home or office. Share music, movies and data files among all your computers with wireless convenience of Belkin's Wireless G+MIMO Router.

Connect directly to your Broadband ADSL line to create a Wireless Network in your home or office. Share music, movies and data files among all your computers with wireless convenience of Belkin's Wireless G+MIMO Router. Everyone can get in on the high-speed action - ideal for homes and small office settings.

Wireless G+MIMO (Multiple Input Multiple Output) is based on a smart antenna technology that builds upon the widely deployed 802.11g standard by increasing speed, coverage, and reliability of wireless systems. Ideal for homes with multiple wireless-enabled computers, Wireless G Plus MIMO provides a wider coverage area for downloading music from the Internet, sharing photos, and gaming online. Its design helps combat distortion and interference that lets the Belkin products send data streams farther and more reliably.

Benefits

- **Up to 1000 ft. of wireless range**
Belkin G Plus MIMO delivers the industry's best wireless coverage, extending your range with improved reliability and fewer drops
- **10x the wireless speed**
10 times faster than 802.11b and double the speed of 802.11g
- **Guaranteed interoperability**
G Plus MIMO is Wi-Fi® certified and seamlessly interoperates with a mixture of Belkin's G Plus MIMO, Pre-N, and legacy 802.11b/802.11g devices
- **Improves performance of legacy 802.11g and 802.11b networking devices**
In mixed networking environments, Belkin G Plus MIMO products increase 802.11g and 802.11b performance up to 10%
- Wi-Fi certified for secure network connection
