

## Black Category 5 RJ45 Jack - R6D022-AB5

The Category 5 jack is the last interface that data has to travel through before it reaches its final destination--the workstation. The only thing ahead is a short patch cable.

This black CAT5 RJ45 Keystone Jack supports both T568A and T568B wiring. Fits any unloaded Keystone wall plate.

### Product Features:

---

- Exceeds the performance requirement of Category 5.
- 110-punchdown style for easy termination.
- Fits into all standard Keystone or Angled Multimedia Wallplates.
- Supports both T568A and T568B installations.
- Full lifetime warranty.
