

Omniview 2-Port KVM Switch with Audio Support and Built-In Cabling, PS/2 - F1DL102Pea

This Switch provides an affordable KVM solution that saves workspace while giving you control of two PS/2 computers from one console. Its compact design with built-in cabling saves you time on installation, desktop space, and money. The Switch includes such features as audio and mic support, mouse and keyboard emulation to ensure smooth boot up and operation, as well as hot key functionality so you can switch ports easily through simple keyboard commands. The unit supports high-quality video resolution of up to 2048x1536@65Hz through its built-in coaxial VGA cabling. Its auto-scanning functionality, LED indicators, and PC99 color connectors make operation and organization easy.

Product Features:

- Offers a complete compact solution with audio support and built-in cables
- Features hot key switching
- Supports video resolutions up to 2048x1536@65Hz
- Includes automatic scanning function
- Requires no power supply
- Supports multiple operating systems
