

Mac® Serial High Speed Hardware Handshaking Modem cable 1.8Metre(6 feet) - F2V091-06

"Back in my day, we didn't have no - Inernet." "We had a telephone, and if we wanted to send a message we folded it into a paper airplane, and hoped it made it to the right house." Thank goodness for modern technology, and the Belkin Modem Cable.

A Pro Series High Speed Modem Cable that links any Apple® computer with an 8-pin miniDIN female port to High Speed Modems with flow control and to all Hayes compatible modems with a DB25 female port.

Características del producto:

- Aluminum connector shielding helps to meet FCC requirements on EMI/RFI interference.
- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
- Tin-plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- Flextec™ PVC rubberized Cable jacket is extremely flexible for use in tight areas.
- A Belkin certified lifetime warranty.
- Molded strain relief and PVC OverMolding to ensure a lifetime of error free data transmission.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed error-free transmission.
- Ground indents provide excellent conductivity and retention with mating connectors.
