

## PureAV(tm) Blue Series Flat Scart cable - AV21501ea

Experience a sharper, more vivid picture with PureAV Video Cables from Belkin. Using advanced engineering methods and the highest-quality materials, PureAV Cables isolate your signal from interference to deliver the purest video solution available. Ordinary video cables, such as those that come with your video device, sacrifice performance by using lowergrade materials, including steel or low-purity copper conductors. This results in signal loss, poor picture resolution, and inaccurate colours. PureAV's broad selection of products offers a full range of performance levels to enhance your home theatre experience. Specifically designed to allow for the best quality connection, this Flat Scart cable provides bright, accurate colours and sharp picture detail. PureAV Flat Scart cable is an ideal solution for high resolution image reproduction.

### Características del producto:

- Connect a VCR, DVD or cable box to your television
- Ideal for under carpets
- Provides maximum isolation from electromagnetic and radio frequency interference with double-shielded construction
- Improves clarity with superior-grade, 99.99%-purity copper conductors
- Strengthens signal transfer using precision-formulated, polyethylene material
- Creates precise contact and increased durability with corrosion-resistant, 24k gold connectors
- Isolates noise with 100%-coverage aluminum/Mylar foil shield
- Creates an additional layer of protection with tinned, copper-braided or spiral shielding
- Eliminates the corrosion that is common in bare, copper-braided or spiral shielding
- Belkin Lifetime warranty
- Available in the following lengths: 0.9m, 1.8m and 3.7m
