

Pro Series IEEE 1284 Parallel Printer Cable (A/C) - 3m - F2A045ea10

You've purchased the printer of your dreams, but a faulty printer cable keeps sending it error filled data. This Belkin Pro Series printer cable will keep that dream machine error free. This Pro Series male DB25 to male Micro Centronics 36 Pin Cable links your IEEE 1284 printer to your PC. Featuring our exclusive wiring design and cable technology that guarantees optimal performance and data transfer.

Características del producto:

- 18 tightly woven conductor pairs have each data line paired with a ground line to minimize cross talk, noise and other interference, ensuring error-free printing.
- Double shielded braid and foil to meet IEEE 1284 specifications, and ensure compliance with FCC requirements, reducing EMI/RFI.
- Aluminum undermold shielding helps to meet FCC requirements on EMI/RFI interference.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Ground indents provide excellent conductivity and retention with mating conductors.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Molded strain relief and PVC overmolding to ensure a lifetime of error-free data transmission.
- Flexitec®153; PVC rubberized cable jacket is extremely flexible for use in tight areas.
- Oversized ergonomic thumbscrews make installation a breeze.
- IEEE 1284 compliant printer cable.
- A Belkin certified lifetime warranty.
- Ten times faster data transfer when compared with non-compliant IEEE 1284 cables.
- Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum.
- State-of-the-art-wiring design ensures 100% compatibility with all devices 100% of the time.
