

Gold Series USB Extension Cable - 1.8m - F3U134-06-GLD

"Almost there, just a little farther," you say, while the taut USB cable stretches, as you desperately tries to plug it into your PC. Suddenly, your new printer flies off the desk and into pieces. For the ultimate in cable technology, use a Belkin Series Gold USB Extension Cable, and save your printer and yourself. The Gold Series USB Extension Cable extends the length of your USB device cable to your hub, PC, or Mac®. Perfect for devices with short cables. 24K Gold Plated Corrosion-Proof connectors maximize conductivity.

Características del producto:

- Fast, 12 Mbits/sec transmission speed.
- 24K gold plated corrosion-proof connectors maximize conductivity.
- Tactile 153 molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Belkin lifetime warranty.
- HotPluggable.
- Fully compatible with the PC.
- Gold plated copper connectors provide maximum conductivity and minimize data loss.
- Foil and braid shield complies with fully rated cable specifications reducing EMI/RFI interference.
- 20-gauge, double shielded, power wire conductor construction.
- Impedance matched twisted pair construction to minimize cross talk, ensuring high-speed, error-free transmission.
- Undermold shield helps to prevent radio frequency and electro-magnetic interference (EMI/RFI). Hood shielding eliminates antennae excitation.
