

Gold Series Hi-Speed USB 2.0 Device Cable - 1.8m - F3U133-06-GLD

The Gold Series USB Device Cable connects your USB device to your USB hub, PC, or Mac®. Featuring 24K gold plated connectors, which maximize conductivity and provide error free data transmission.

©2008 Belkin Components

Características del producto:

- Fast 480 Mbps transmission speed
- 24K gold plated corrosion-proof connectors for maximum conductivity and a clean clear transmission
- Tactile strain relief provides a 360-degree turning radius for true protection against damage to the conductors
- 20-gauge high performance power wires ensure maximum USB performance
- 20-gauge high performance power wires ensure improved power handling
- Exceeds USB specifications
- Lifetime Warranty
- Fully compatible with Macintosh®
- Supports up to 127 devices on a daisy-chain configuration
- Flex-tec™ cable jacket is extremely flexible for use in tight areas
- Gold plated copper contacts provide maximum conductivity and minimizes data loss
- Foil and braid shield complies with fully rated cable specifications reducing EMI/RFI interference
- Impedance matched twisted pair construction helps to minimize cross talk, ensuring high-speed, error-free transmission
- Undermold shield helps to prevent radio frequency and electro-magnetic Interference (EMI/RFI). Hood shielding eliminates antennae excitation
