

Gold Series PC Serial Modem Cable - 3m(10 feet) - F2J088-10-GLD

Gold is one of the most sought after metals in the world. So we have added this precious metal to our top-of-the-line GOLD Series serial cable, making it the fastest serial modem data transfer available. Attach virtually any existing external modem with a female DB25 port to your PC. Featuring 24K gold plated connectors for error-free data transmission.

Características del producto:

- 24K gold-plated corrosion-proof connectors for maximum conductivity.
- Tactilite®: molded strain relief provides a 360-degree turning radius for true protection against damage to the conductors.
- Flextec®: cable jacket is very durable and extremely flexible for use in tight areas.
- Quality assured with the Belkin Lifetime Warranty.
- Tactilite®: overmold is a supple polymer designed to increase flexibility while maintaining durability.
- 24K gold plated copper connectors provide maximum conductivity, with no data loss.
- Fastest data transfer for maximum performance.
- Oversized ergonomic thumbscrews make installation a breeze.
- Ground indents provide excellent conductivity and retention with mating conductors.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- 28 AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
