

Wireless Desktop 280 - F8E860ukBNDL

Belkin brings more features and functionality with the Wireless Desktop 280, including one-click access to music and movies, along with easy Internet access and navigation. Designed to free up your desktop space from cable clutter, the Wireless Desktop 280 gives you the freedom to move your keyboard and mouse anywhere within 1.8 metre of the receiver. To create more desktop space when not in use, your keyboard and mouse store easily on a shelf or in a cabinet. The keyboard features a number of one-touch access keys for the most commonly used multimedia and Internet applications and commands. Customizable keys let you tailor functions conveniently for your use. The 8-button mouse offers the seamless precision and accuracy of optical technology. You can program as many as three of its buttons to perform such tasks as page forward/back, undo/redo, cut/copy/paste, and more.
