

Wireless Pre-N Desktop Network Card - F5D8000

El sustituto de este producto es el artículo n° F5D8001ef

The Belkin Wireless Pre-N Desktop Network Card connects your desktop computer to your wireless network with new Belkin Pre-N technology. It lets you share your broadband Internet connection farther and faster than ever. Featuring smart antenna technology, the Pre-N design helps combat distortion and interference so the Network Card can send its data streams greater distances, more reliably.

With a Belkin Wireless Pre-N Router as the central connection point of your network, your computers can share your high-speed Internet account as well as files, printers, and hard drives.

Belkin's Pre-N technology offers backward compatibility with existing 802.11g and 802.11b products, to provide seamless integration into existing wireless networks. In fact, its advanced technology enables Belkin Pre-N products to significantly improve the performance of standard 802.11g and 802.11b devices in the mixed network environment.

Características del producto:

- **8x greater coverage than standard 802.11g** - Belkin Pre-N provides the industry's best wireless coverage, extending your range with improved reliability and fewer drops
- **6x greater speeds than standard 802.11g** - Belkin Pre-N provides the industry's fastest wireless connection for gaming, streaming video, Voice over IP, and moving large files efficiently and quickly between all the devices in your networked home
- **Improved performance of standard 802.11g and 802.11b networking devices** - Using a Belkin Pre-N Router or Card with an older 802.11g or 802.11b networking product increases wireless coverage up to 20%
- **Improved resistance to wireless interference** - Belkin Pre-N products sense potential interference and dynamically shift to the clearest wireless channel available
- **Belkin Pre-N products do not drop to the lowest networking speed in a mixed-mode environment** - If a standard 802.11g or 802.11b device is introduced into a Belkin Pre-N network
- **The Belkin Pre-N product will not drop to the standard 802.11g or 802.11b speeds** - Belkin Pre-N products will continue to transmit at a link rate of 108Mbps, a result competing products cannot achieve
- **Advanced Security** - Wi-Fi Protected Access (WPA) support provides enhanced encryption protecting your wireless network.
- **Pop-up Blocker** - 6 months of free pop-up, adware, and spyware stopper
- **Compatible with Windows 2000 and XP only**
