

Pro Series VGA Monitor Extension Cable - 10 feet (3M) - CC4002aed10

Pro Series VGA Monitor Extension Cable extends the length of any existing Super VGA monitor cable with high-density DB15 connectors.

Product Features:

- AWG stranded tinned copper conductors are individually insulated in polypropylene to minimize cross talk, ensuring high-speed, error-free transmission.
- Aluminum undermold shield helps to meet FCC requirements on EMI/RFI interference.
- PVC premold encapsulates individual conductors to ensure electrical isolation and relieve stress.
- Ground indents provide excellent conductivity and retention with mating conductors.
- Oversized ergonomic thumbscrews on both ends make installation a breeze.
- 24K gold plated copper contacts provide maximum conductivity with no data loss.
- Oversized ergonomic thumbscrews enable easy installation
- Flexitec® cable jacket is very durable and extremely flexible for use in tight areas.
- Full lifetime warranty.
- State-of-the-art wiring design ensures 100% compatibility with all devices 100% of the time.
