

Switch2 for Mac mini

Two computers. One monitor. No problem. Switch2 for Mac mini lets you share one monitor, keyboard, and mouse between your Mac mini and another PC or Mac computer. Keep your old computer for access to financial records, games, email, and more. Use your new Mac mini for music files, photos, and other multimedia. You can easily switch access from one computer to the other with a simple press of the button, a hot-key sequence or by using the optional software.

Benefits

- Offers the only KVM-switch functionality designed especially for the Mac mini
- Supports all Mac keyboards and function keys
- Stacks neatly under your Mac mini to save desk space
- Shares one set of speakers between both computers
- Lets you listen to music files on one computer while you work on your other computer
- Ejects CDs and adjusts volume easily on your Mac mini with touch-sensitive buttons
- Reduces desktop clutter and simplifies installation with built-in cables
- Requires no additional cables or software for installation
