

## N+ Modem Router

Belkin's N+ Wireless Modem Router is based on the draft 802.11n 2.0 technology which provides a wireless network that has the range to easily cover any-size home or office. The N+ Modem Router has the bandwidth and speed for handling media intensive applications that take up large amounts of your bandwidth.

A USB Storage port on the back of the router enables you to connect USB storage devices such as an external hard drive or thumb drive to the network. Now you can centrally store and share media content and files from the USB hard drive to every computer on the network.

The N+ Wireless Modem Router is the central connection point of your wireless network. You can add up to 16 computers to your Wireless Network with additional desktop and notebook adapters. Position your Belkin Modem Router in between your Broadband ADSL line and your computer to start sharing your broadband Internet access.

For better wireless performance, use the Belkin N+ Wireless Modem Router with an N+ Wireless USB Adapter (F5D8055) connecting your client computers. (Sold separately)

### Benefits

---

- USB Storage Port for easily connecting USB storage devices to your network
- 4 Ethernet Ports for Wired Connections
- ECO Features, Automatic Wireless Disable and Dim LED Features.
- Draft 802.11n 2.0 increases your networks wireless range and speed than 802.11g
- Download Speedometer bar that measures the download speed of your broadband
- Compatible with ADSL, ADSL 2 & ADSL 2+
- Push Button Security (Wi-Fi Protected Security)
- Easy setup Assistant and troubleshooting with Network Status Display
- Free 24/7 technical support (local rates apply)
- IEEE 802.11b/g and Wifi 802.11n Draft 2.0 Compliant

### Package Includes

---

- N+ Wireless Modem Router ; EZ Setup Assistant CD ; Power Supply
- Quick Installation Guide ; LED Troubleshooting Guide ; Security Setup Guide
- RJ45 Ethernet Networking Cable ; RJ11 Phone Line Cord ; ADSL In-Line Filter (in Some

Regions)

- User Manual on CD-ROM

## Technical Specifications

---

Security	Wi-Fi Protected Setup, 256-bit WPA/WPA2-personal, 64-bit, 128-bit WEP
Range	Up to 365 m
VPN Support	PPTP, IPSec pass-through
LEDs	Speedometer bar, Security, Wired, Wireless, Storage, Router, Modem, Internet
Security	WEP (64-128bit), WPA-PSK (TKIP), WPA2-PSK (AES) with WPS Push Button
Range	1200ft (365m)
Maximum Users	253 of which 16 wireless
Link Rate	300 Mbps (In 40MHz Mode)
VPN Support	PPTP and IPSec pass-through
LEDs	Download speedometer, Security, Wireless, Wired, Storage, Router, ADSL, Internet
Supporting Software	Windows 2000, XP, Vista and Mac OS 10.4 or 10.5 for Setup Assistant; any OS with TCP/IP support for normal operation
Reset Process	Hold the reset button for 10 seconds when the router is powered
Bandwidth	20 MHz & 20/40 MHz auto
Humidity	Operating: 10 ~ 85%, Storing: 5 ~ 95% non-condensing
ISP Protocols Supported	PPPoE, PPPoA, RFC1483 Bridged (Dynamic/Static), RFC1483 Routed (Static), Bridge Mode (Modem Only)
Quality Of Service	802.11e/WMM
IP Sharing Method	Network Address Translation (NAT)
Supported Languages	English, German, French, Spanish, Dutch, Italian, Simplified Chinese, Traditional Chinese, Japanese, Korean
User Interface	HTML Browser based User Interface ( <a href="http://192.168.2.1">http://192.168.2.1</a> )
Compliant Standard	IEEE 802.11b, 802.11g, and draft-802.11n
Firewall	NAT (Network Address Translation), SPI (Stateful Packet Inspection)
Hardware Interface Type	4xRJ45 (10/100 Mbps LAN), 1xRJ11 (ADSL), USB-A (Storage)
Radio Frequency Band	ISM Band: 2400-2483.5 MHz (2.4 GHz)
Radio Frequency Band1	Europe: 1-13
