

Blue Category 5 RJ45 Jack - R6D022-AB5-BLU

The Category 5 jack is the last interface that the data has to travel through before it reaches its final destination—the workstation. The only thing ahead is a short patch cable.

This blue CAT5 RJ45 Keystone Jack supports both T568A and T568B wiring and uses the industry standard 110 interface. Fits any Keystone wallplate.

Product Features:

- Exceeds the performance requirement of Category 5, standard.
- Fits into all standard Keystone wallplates.
- Supports both T568A and T568B installations.
- Full lifetime warranty.
- 110-punchdown style for easy termination.
