

## Specifications

### System Requirements

For operation in high-speed mode:

### Configuration require

Pour une utilisation en haut débit :

### Systemanforderungen

Für den Gebrauch im High-Speed-Modus:

### Systemvereisten

Voor gebruik in de hogesnelheidsstand:

### Requisitos del sistema

Para funcionamiento en modo de alta velocidad:

### Requisiti di sistema

Per un funzionamento in modalità ad alta velocità:

- Windows® 98 SE, Me, 2000, XP
- Hi-Speed USB 2.0 port (480Mbps)
- Pentium® II 400MHz
- 64MB RAM

For operation in full-speed mode:

Für den Gebrauch im Full-Speed-Modus:

Voor gebruik op volledige snelheid:

Para funcionamiento en modo de velocidad máxima:

Per un funzionamento in modalità ad intera velocità:

- Windows® 98 SE, Me, 2000, XP
- Full-speed USB port (12Mbps)
- Pentium II 400MHz
- 64MB RAM

### Ports • Anschlüsse • Poorten •

### Puertos • Porte

- RS232 port
- 2x Hi-Speed USB 2.0 ports
- Parallel printer port / Port parallèle (imprimante) / Parallel-Druckeranschluss / Parallele printerport / Puerto paralelo para impresora / Porta stampante parallela
- VGA pass-through / Port VGA de transit / VGA-doorvoerpoort / VGA de paso / Porta passante VGA
- 10Base-T/100Base-T Ethernet port (100Base-T in high-speed mode only) (100Base-T en a haut débit) (100Base-T nur in High-Speed-Modus) (100Base-T alleen in hogesnelheidsstand) (sólo 100Base-T en modo de alta velocidad) (solo in modalità 100Base-T ad alta velocità)

### Package Includes • L'emballage contient • Verpackungsinhalt • Deze verpakking bevat • Contenido del paquete •

### La confezione comprende:

- Hi-Speed USB 2.0 DockStation
- CD Driver
- VGA pass-through & Hi-Speed USB 2.0 cables (attached)  
Câbles VGA de transit & USB 2.0 haut débit (attachés)  
VGA PassThrough & Hi-Speed USB 2.0-Kabel (beigefügt)  
VGA-doorvoer- en Hi-Speed USB 2.0-kabels (bevestigd)  
Cables VGA de paso y USB 2.0 de alta velocidad (incluidos)  
Cavi passanti VGA & Hi-Speed USB 2.0 (attaccati)
