

# Hi-Speed USB 2.0 Compact Hub

Connect up to 4 Hi-Speed USB 2.0 devices as you travel

The Hi-Speed USB 2.0 4-Port Compact Hub from Belkin lets you connect up to four Hi-Speed USB 2.0 devices with easy, Plug-and-Play functionality virtually anywhere you take your laptop. With Hi-Speed USB 2.0 connectivity, you get fast, reliable data transfers for a variety of devices. Its compact size and advanced functionality make it the ideal accessory to include inside your laptop case—an ideal solution for today's mobile professional.

## Installation Instructions

1. Connect the Hub to your computer. Using the included USB cable, connect the square USB "B" connector on the Hub to your computer's USB port. If your computer is powered on, the Hub should be immediately detected and configured.
2. Attach your devices to the Hub.

*The Belkin Hi-Speed USB 2.0 4-Port Compact Hub supports up to 4 low-powered devices (such as mice and numeric keypads) or 4 Hi-Speed USB 2.0 devices when using the included power supply.*

Compare Hi-Speed USB 2.0 to USB 1.1	
Hi-Speed USB 2.0 (480Mbps)	<div style="width: 100%;"></div>
FireWire IEEE 1394 (400Mbps)	<div style="width: 83%;"></div>
USB 1.1 (12Mbps)	<div style="width: 2.5%;"></div>

- Connect up to 4 Hi-Speed USB 2.0 devices to a single USB port on your computer
