The TuneBase for iPod shuffle offers the most flexible way to use your iPod shuffle on the road. The holder features an innovative, flexible steel neck that easily positions your iPod shuffle for your comfort, convenience, and safety while driving. TuneBase works through any cigarette-lighter outlet within the car. While mounted in the TuneBase, your iPod shuffle powers and charges simultaneously. The TuneBase also features a 3.5mm line-out for use with the specially designed Belkin Cassette Adapter (not included) for high-quality audio through your car stereo. The TuneBase makes sure your music goes wherever you do.
