FireWire 800 2-Port Hub

Designed to deliver up to double the transfer speed efficiency of the original FireWire technology, the Belkin FireWire 800 2-Port Hub allows you to connect multiple computers and FireWire devices simultaneously. The newest IEEE 1394b specification, FireWire 800 provides real-time data—critical for streaming video or audio applications.

The Belkin FireWire 800 2-Port Hub provides excellent results for bandwidth-intensive applications like high-speed external disk drives, portable storage devices, digital audio and video, and home entertainment components.
